P R A E F A T I O

Indicem confeci Ammiani Marcellini Rerum gestarum librorum textum secuta Caroli Clark Berolini annis 1910/1915 editum. In hoc indice substantiva, adiectiva, pronomina secundum casum, genus et numerum, verba secundum modum, tempus et personam ordinavi. Quod ad praepositiones pertinet secuta sum divisiones quae inveniuntur in Kühneri grammatica, quae germanice inscribitur Aüsfuhrliche Grammatik der lateinischen Sprache Hannover 1962. Nominum propriorum tantum nominativi mentionem feci.

Animadvertendum est me secutam non esse stricte litterarum ordinem, sed adverbia post verba vel adiectiva eiusdem radicis disposuisse. Etiam adiectiva, quae nominis vim obtinent, inveniuntur post adiectivum a quo mutuantur. Non aliter invenias participia, quae substantivi munere funguntur, nisi post verbum a quo deducuntur.
